INTRODUCTION

COMMITMENT

The Township of Malahide is committed to removing barriers that prevent people with disabilities from accessing our facilities and services.

This Multi-Year Accessibility Plan outlines the Township's approach to ensuring that the services provided will be done so in an accessible manner. The Township will continue to develop inclusive workplace policies and procedures. Our goal is to ensure accessibility for our employees and the public that we serve with our services and facilities.

BACKGROUND

For several years, the Township Staff, with the assistance of the now defunct Accessibility Advisory Committee, has been removing barriers through processes outlined in the *Ontarians with Disabilities Act (ODA), 2001*. The Staff will continue to seek input from persons with disabilities in our community, however, planning will become integrated into multi-year planning cycles. This process will combine the planning requirements of the *Ontarians with Disabilities Act, 2001* and the *Accessibility for Ontarians with Disabilities Act, 2005*.

ACCESSIBILITY ADVISORY COMMITTEE

Previously, the Township had formed an Accessibility Advisory Committee to begin the process of obtaining compliance with accessibility legislation. The Township of Malahide is not required to have its own committee based on its population size; and therefore, the committee has disbanded and the Township has availed itself of the assistance provided by the County of Elgin and its designated Accessibility Co-ordinator.

OBLIGATIONS

This multi-year plan is based upon requirements under the *Accessibility for Ontarians with Disabilities Act (AODA)*. The AODA sets out the roadmap for an accessible Ontario by 2025. It contains standards in the following five areas:

- Customer Service
- Information and Communications
- Employment
- Transportation
- Built Environment.

The Accessible Customer Service Standard came into effect in 2008. In 2011, under the Integrated Accessibility Regulation, the Province combined Information and Communications, Employment, and Transportation. In 2014, the Province added the Design of Public Spaces into the Integrated Accessibility Standard and the Ministry of Municipal Affairs and Housing has updated the *Ontario Building Code* to include barrier free amendments. All Township projects will consider both of these regulations and attempt to exceed these requirements where practical.

This plan outlines the requirements of the AODA along with projected timelines. An annual status report will be developed that will report on the previous years' accomplishments.

The plan will be reviewed and updated once every five years. This includes consultation with the public.

MONITOR AND REVIEW

This multi-year accessibility plan will be reviewed and updated at least once every five years along with a public consultation. An annual status report will be completed to document the progress and measures taken to implement the Township of Malahide's strategy and meet the requirements under the AODA.

The Township's Human Resources Co-ordinator is responsible for the development of this plan, in consultation with the County of Elgin's Accessibility Co-ordinator.
