

TREE PLANTING PROGRAM - 2023

Malahide Township Council began a tree planting program in 1987 and has planted over 5,650 trees to date. The trees are provided free provided they are **planted adjacent to the road allowance within the Township of Malahide**

Anyone interested in acquiring trees should phone the Township Office at 773-5344 before **April 7, 2023**.

The following conditions apply and limitations may be necessary depending on the response from ratepayers to this tree planting program:

As a recipient of these trees, the following conditions must be met:

1. All trees shall be planted 1 to 1.5 meters from a 66' road allowance. Trees may not be planted on the Road Allowance. Leave enough room for the mature tree's canopy to remain fully on your property and not reach over the road allowance.
2. All trees shall be placed no closer than 10 meters (33') apart.
3. All trees **must** be planted 5 meters (16') away from hydro lines.

To help ensure that your trees survive, we advise you of the following:

1. Plant the trees as soon as possible.
2. Do **not** trim any branches the first year (except broken ones).
3. Cracked or broken roots should be trimmed off.
4. Plant the tree to the same depth as planted at the nursery.
5. Adequately water the trees until they are well established.

Please note that the Road Works Department will be making an inspection after the trees are planted to ensure that all trees are along the road allowance.
