Application for Approval of a Site Plan

Instructions

Each applicant is required to submit a complete site plan application package which shall include the following mandatory components:

- ✓ Complete Application Form
- ✓ Application Fee
- ✓ Site Plan Drawings
- ✓ Elevation Drawings
- ✓ Site Servicing Drawing
- ✓ Plus any additional information required by the Township or local and provincial agencies (including any required reports and/or studies)

Please note that the Township or local and provincial agencies may require the applicant to submit additional information. These site specific submission requirements may include studies or reports related to matters such as the environment, transportation network, water supply, sewage disposal and storm water management.

All measurement values must be presented in Metric units.

If the Applicant is not the owner of the subject land, a written statement by the owner authorizing the applicant to act on behalf of the owner in relation to the subject application must accompany the application (see 10.0).

Failure to complete and provide all required information may result in the return or refusal of the application.

Application Review Process

Applications will not be considered unless all of the critical components have been submitted by the applicant. Applications missing additional information will be received and processed, but will not be processed to conclusion if staff have insufficient information to support the plan.

Upon receipt of an application, Township staff will review the materials received by the Applicant and determine whether there is sufficient information (i.e. all critical application components) to process the application.

If it is determined that the application is complete, the application and drawings will be circulated to Township staff, and, in some cases, external professionals, for review. The persons reviewing the application will prepare comments and set out any issues with the application.

If the application is incomplete or the plans and drawing do not comply with municipal and/or statutory requirements, the applicant will be contacted by the Township and the applicant will be required to attend a Site Plan Consultation Meeting with Township staff to discuss the deficiencies in the application. The Applicant must be aware that it is possible that Township staff will require revisions to the detailed design materials and may require submission of additional detailed design materials. Having received comments from the Township, the applicant may be required to submit revision materials to complete the application and this step may continue until the development complies with the municipal and statutory requirements.

The Township will provide the Applicant with a list of the Conditions for Site Plan Approval. It is the applicant's responsibility to satisfy all Conditions for Site Plan Approval.

Approval Process

Upon completion of the review process, a draft Site Plan Agreement will be provided to the applicant. The applicant will then have the opportunity to review and consider the draft Site Plan Agreement and may request a meeting to discuss any concerns with Township staff.

After the review process is complete, the finalized Site Plan Agreement will be finalized and sent to the applicant for signature.

The applicant is required to sign the Site Plan Agreement in duplicate and return it to the Township with all required securities and any other materials that may be required in the Agreement or by Township staff.

Following receipt of the above, the Site Plan Application will be placed on the next regular scheduled meeting of Council. Once approved, the Township will execute the Site Plan Agreement and it will be registered against the property title.
