

Notice of Public Meeting

Update to the Elgincentives CIP

What is a CIP:

A Community Improvement Plan (CIP) is an economic development tool used by municipalities in Ontario to **guide strategic investment, development, and revitalization initiatives that support the physical improvement of a municipality or areas within a municipality.** The Elgincentives CIP was adopted in 2015, and after more than a decade of supporting community improvement across Elgin County, the County has undertaken a review and update of the Plan.

Why is an Update Needed:

The purpose of this update is to **ensure the program continues to reflect current provincial policy direction, emerging economic development trends, and evolving community priorities.** This update builds upon the existing Elgincentives program by refining the structure of the document, updating incentive programs, and **introducing new initiatives to better support community improvement across the County.**

Proposed Amendments:

A digital copy of the proposed amendments to the CIP can be viewed here: <https://engageelgin.ca/elgincentives>

For physical copies, please visit your local Municipal Office during regular office hours.

Public Meetings:

Public meetings will be held in the **Township of Malahide**, the **Town of Aylmer**, and the **Municipality of Bayham** to provide any person the **opportunity to submit formal written and/or verbal comments either in support or opposition** regarding the proposed amendments before Council's review.

Meetings will take place for the respective municipalities at the locations listed below and will be livestreamed.

For more information on this matter, including guidance on how to make a submission, details on appeal rights, electronic participation, or if you need special accommodations to review these materials, please reach out to the individuals listed below.
